

Cicer One Technologies Inc., a data privacy company.

Easy customer screening and tracing compliance is critical for your business to re-open during the COVID pandemic. This screening and tracing are expected to be an ongoing requirement for all businesses over the *next couple years*. Trying to manage employees, cleaning, and paperwork for each customer can be expensive and distracting for your employees and your business.

- Keep your customer environment safe for everyone
- Automatic notifications of health screen results for incoming customers
- Easy compliance to regional and municipal COVID Track and Trace data collection
- Compliance to Provincial and Federal Privacy Laws
- Expand your brand and marketing exposure

COVID Track & Trace service makes the collection and screening of your customers simple, effective, and protects the privacy of your clients.
